

**I'd like to be, under the sea...
in an octopus's garden,
in the shade.**

Monterey Peninsula College
MAST 55

*Introduction to
Submersible Technology*

A one-semester course designed to get you into the ocean realm. Topics include submersibles, rovs, auvs, and all the systems that make them go. We will build a real operating rov to explore the ocean.

Spring Semester Begins January 31, 2005.

This class will meet Monday and Wednesday, 9 - 12:00pm , 1/31 - 5/26 (17 weeks)

For additional course information, please contact Jim Hall at 646-4087 or jhall@marinetech.org.
